

Inspired by old Folk, Country, Jazz, Blues, World Music, Alternative, Indie and Americana, Shira Lee & The Space Cowboys are fighting for expansion through sound, to cross the great divide between the mundane and extraordinary. Shira uses songwriting and storytelling to traverse life's experiences & connect with the great spirit, in hopes that the music resonates with others and their life journeys.

Playing guitar, dulcimer, ukelele, & banjo, Shira provides a uniquely nostalgic background for the Cowboys to play with, while Sean Edelson weaves in a wild "Lone Ranger," soundscape on slide guitar, Rey Rodriguez provides a "walking country" heartbeat on the bass, and on drums Misty Grotto brings it all together through heartfelt beats and shuffles from the soul. Welcome to "Space Country."
